

P. Ravensbergen & Sons Ltd.

November 10, 2023

Notice of Public Community Meeting

December 4, 2023 @ 7:00 PM

As part of the Independent Electricity System Operator's (IESO's) Long Term Reliability Project Request for Proposal (LT1 RFP) to competitively procure year-round capacity from dispatchable resources, P. Ravensbergen & Sons Limited is proposing to expand their existing 2.7 MW electricity production facility. The expansion will consist of one (1) additional natural gas fired combined heat and power engine with an electrical output of up to 2.7 MW. The engine will be located inside a newly renovated facility.

A public community meeting will be held to discuss project details on December 4, 2023, at 7:00 pm. The meeting will be held in person at 2873 South Grimsby Road 10, Smithville Ontario

Meeting Agenda:

- Introduction and background
- Project proponent, name of project, nameplate capacity and technology
- Description of proposed project as well as general details of existing plant
- Map showing boundaries of project site, location of Connection Point and Connection Line
- Details of selected power engine
- Question and Answer Period

For all inquiries regarding this project and to RSVP for the meeting please contact:
